The college has earned repute as 'one of the fastest growing pharmacy college' of the region.

Partner 2:

Sachin G Lokapure founder of The Saglo Research Industry. In India Today, Pathology Labs Are Needed For The Microscopic Diagnosis Of Many Diseases In The Medical Field. This Microscopic Diagnosis Is Made By Means Of Microscopy Equipment. However, Some of The Microscopy Equipment Available In India Is Imported From Abroad, Namely Japan and China. These Imported Equipments Are Also Expensive. So There Are Some Technical Errors In Reporting. As a result, Sachin Gangadhar lokapure from Miraj, Sangli, has researched and developed his own indian-made digital microscopy equipment. lokapure started research at the tender age of 22 and obtained the first patent.

Quality Scientific research & Optic Microscopy Mechanical Works (microscope manufacturers in India) has ushered onto the path of accelerated growth since its establishment in the year 2014. The logical ideas and effective methods to handle the managerial activities, have assisted the company to acquire distinguished position amidst the dependable Industrial & pathological Microscopes Manufacturers in India. The company has also earned loads of appreciation in the market for dealing in Scientific & Industrial Instruments.

Purpose:

The purpose of the MOU is to formalize the relationship between SAGLO Research and Equipments and the Anandi Pharmacy College, outlining the terms of their collaboration and establishing a framework for mutual benefit in research, education, and knowledge exchange in the field of pharmacy.

THE MEMORANDUM OF UNDERSTANDING WITNESSETH AS UNDER:

1. This could involve joint research initiatives, sharing of resources, and collaboration on publications.
2. SAGLO Research and Equipments might agree to provide the pharmacy college with access to specialized equipment or facilities necessary for research or educational purposes.
3. The MOU might facilitate educational opportunities for students, such as internships, training programs, or joint academic projects. This could enhance the educational experience of pharmacy students by providing them with real-world research opportunities.

4. Both parties may agree to exchange knowledge and expertise in relevant areas of pharmaceutical research and equipment usage. This could involve seminars, workshops, or joint conferences aimed at sharing best practices and advancing the field.
5. If any research conducted under the MOU leads to commercially viable products or technologies, the agreement might outline how intellectual property rights will be managed and any revenue sharing arrangements.

TERMS AND CONDITIONS

1. The MoU is for a period of three years from the date of signing, and can be renewed with mutual consent.
2. The MoU shall continue for a period of 03 years, unless either party notifies in writing to the other party of its intention to terminate this MoU 90 days in advance.
3. The MoU is not a legally binding contract, and under no circumstances does this memorandum subject either of the parties to liability for breach whether material or minor of contract or any other liability under national or international law or any other applicable law.
4. The MoU does not place any financial liability on either of parties.
5. The parties may nominate an identified individual to establish a "Joint Working Group" to manage and execute the cooperative activities mentioned in this MoU.

AWARNESS OF CANCER IN WOMENS

On 20/1/2024 in NSS Camp ANANDI B PHARMACY COLLEGE organized jointly meet of all ladies' students of Anandi Pharmacy, women's in Wakare village and Surekha sutar regarding proper use of sanitary napkins for avoiding uterus cancer. For the program Honorable Secretary Dr. Mrs.Vidya Desai, HOD Mrs Adnaik mam and all ladies staff members along with ladies were present.

Surekha sutar mam explained chemicals used in ultra napkins which converts liquid into gel, causes bladder and uterine cancer, the use of cotton pads over ultra pads and asks users to change ultra pads within five hours. Artificial fragrance added to the gel-based absorbent core of the pad causes issues similar to cancer.

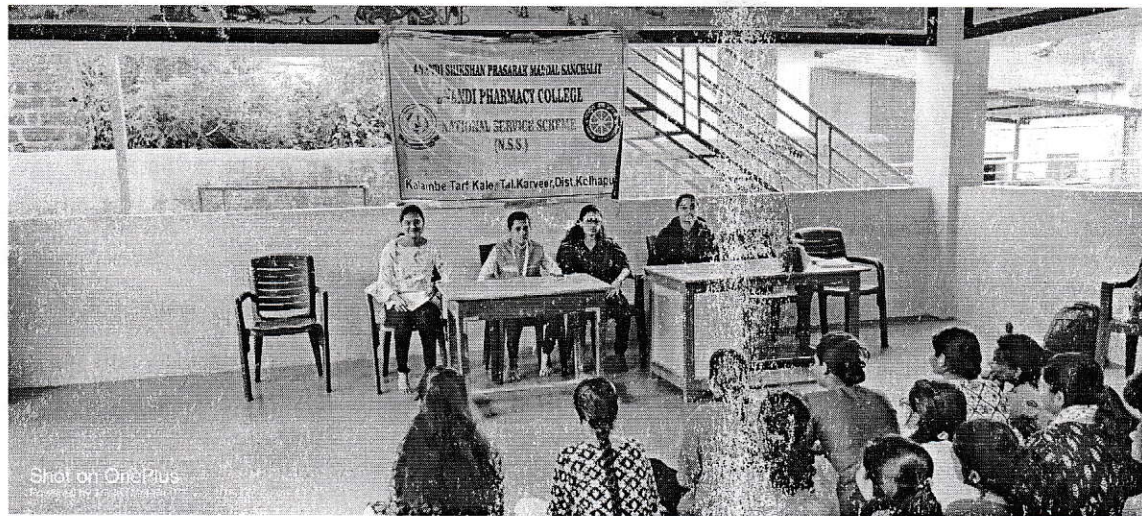

Sanitary pads have a layered design consisting of a fluid permeable surface (topsheet), an absorbent core, and an impermeable backing with adhesive. They are available in varied sizes, absorption capacity, material type, etc. In ultra pads, the absorbent core contains a chemical that converts liquid into gel, hence retaining large amounts of liquid. prolonged use of the ultra-pads leads to the growth of fungus on the pad when the blood becomes green, and subsequent fungal infection of the uterus and bladder.

It is, therefore, advised to change every sanitary pad within 4-6 hours. "Natural bodily fluids can serve as culture media for the growth of bacteria and fungus on the pad if kept for longer durations. However, the risk of bacterial or fungal infection is unrelated to the type of sanitary pads but entirely dependent on the hygiene practices.

PROGRAME OUTCOMES:

- 1) To spread the awareness in women's
- 2) To spread thoughts and ideas of hygiene.

Pharmacy is a branch of science which deals with compounding, manufacturing and dispensing of medicines. Actual practical knowledge is important for the development of students. For this purpose, on 31st August 2019 our Anandi Pharmacy College, Kalmbe tarf Kale was arranged a hospital visit. Prof. Mrs. S. I. Mulla was coordinator of that visit. Our college visits the 'Shravasti Hospital, ICU, Heart and Diabetes Care centre'.

Dr. Sandip J. Shravasti and Dr. Mrs. Madhuri S. Shravasti are the two great persons who found that hospital. Dr. Sandip J. Shravasti has completed M.B.B.S., D.N.B. (MEDICINE). He also completes his diploma in diabetology and diploma in cardiology from England. Dr. Mrs. Madhuri S. Shravasti has completed her M.B.B.S.

The hospital is situated in Kolhapur city. The hospital has Intensive Care Unit, where serious patients treat under observation. ECG, Ventilator facilities are available at that unit. The hospital has adequate ventilator systems. The hospital has adequate supply of medicines because medicines are the important factor of health system. Our students observed the working of hospital and they asked some questions to the doctor.

Doctors also answered and explained their questions. Our students understand the system of dispensing of medicines. They also handle some prescriptions. They felt very happy they got some knowledge of how the hospital is to be worked.

Principal Dr. R. S. Adnaik, Hon. Chairman Prof. Satish Desai sir and Hon Secretary Mrs. Dr. Vidya Desai Madam gave support to conduct such hospital visit.
