REPORT ON - BIRD SHELTER MAKING COMPETITION

Day & Date: Wednesday, May 31, 2023

Venu: Seminar Hall (APCK)

Time: 2:00pm to 4:00pm

Event Overview:

The 'Bird Shelter Making Competition' held at the Anandi Shikshan Prasarak Mandal Sanchalit, Anandi Pharmacy College, Kalambe Tarf Kale (APCK) Seminar Hall on May 31, 2023 was an innovative, creative and artistic event that celebrated the traditional Indian art form of Bird Shelter Making. Organized by the APCK under the IQAC cell, this competition provided a platform for students to showcase their creativity, innovation, and artistic skills.

Objectives:

The objectives of the Bird Shelter Making Competition were as follows:

- The primary objective of the event was to encourage students to protect the homes of voiceless birds and provide them with shelter.
- Promote teamwork and collaboration among participants, as many worked in groups, highlighting the importance of cooperation in artistry.
- Promote creativity, innovation and environmental awareness among students by designing and building bird shelters.

Learning Outcomes:

The Bird Shelter Making Competition provided participants with numerous valuable learning outcomes:

- Engaging in the competition allowed students to express their artistic abilities and creativity through the medium of Bird Shelter Making, enhancing their artistic skills.

Academic Year 2022-23

- Those who worked in groups learned the value of teamwork, cooperation, and effective communication while creating their Bird Shelter Making.
- The participants learned about the importance of nests in the animal kingdom and they learned to create their own nests using natural materials supporting environment.

Conclusion:

The Bird Shelter Making Competition at APCK, Kale Seminar Hall on May 31, 2023, was an innovative, creative and environmentally enriching event that successfully achieved its objectives of promoting creativity, innovation, teamwork, environmental awareness and aesthetic sensibility among students. It also served as a platform for students to express their artistic talents and connect with their environmental heritage through the beautiful and intricate designs of Bird Shelter.

Overall, the conclusion of the competition would likely celebrate the creativity, ingenuity, and dedication of participants while highlighting the importance of creating habitat and shelter for birds in our environment.

Result:

There were total 25 groups participated in this event with great enthusiasm. The winners of this competition were:

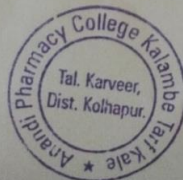

Winner:

Sr. no.	Name of Students	Class
1.	Ms. Swaranjali Chougule	First Year B. Pharm
2.	Ms. Pranali Kaldhone

**A Report on
Visit to “Biomedical Waste Management ”**

A Visit to “Bio-medical waste treatment facility of Kolhapur municipal corporation & ss services, c.s. no. 29, kasba bavda, Kolhapur” was organized Anandi Shikshan Prasarak Mandal Sanchalit Anandi Pharmacy College Kalambe, Tarf Kale. Biomedical waste management is significant to defend the environment and health of the population. Necessity of Biomedical Waste Management: Inadequate management of waste produced in health care facilities causes a direct health hazards on the general public, the health care workers and on the environment. For this purpose, on 28th Feb 2022, our Anandi Pharmacy College, Kalambe tarf Kale was arranged Visit to “Biomedical Waste Management” for the students of first Year B. Pharm. Prof. Mr. S. Patil and Ms. S. B. Sawant and Ms. K.K Mohite was coordinator of that visit.

Patil Sir explain all information regarding to biomedical waste management. Biomedical waste (BMW) is any waste produced during the diagnosis, treatment, or immunization of human or animal research activities pertaining thereto or in the production or testing of biological or in health camps. It follows the cradle to grave approach which is characterization, quantification, segregation, storage, transport, and treatment of BMW. The basic principle of good BMW practice is based on the concept of 3Rs, namely, reduce, recycle, and reuse. The best BMW management (BMWM) methods aim at avoiding generation of waste or recovering as much as waste as possible, rather than disposing.

Therefore, the various methods of BMW disposal, according to their desirability, are prevent, reduce, reuse, recycle, recover, treat, and lastly dispose. Hence, the waste should be tackled at source rather than “end of pipe approach. Our students are able to understanding Necessity of Biomedical Waste Management: There is an obligation for the supervision of biomedical waste to abate the risk of contamination outside the hospital for waste handlers, scavengers and those living

in the locality of hospitals. Management is also required due to the risk of air, water, and soil pollution, or due to unsuitable incineration emissions and ash. It plays a vital role in removal of the discarded drugs that can be repacked and traded off.

Dr. Sachin Pishawikar (Principal of Anandi Pharmacy College) Dr.Rahul Adnaik Sir (Vice Principal of Anandi Pharmacy College), Hon. Prof. Satish Desai sir (Chairman Anandi Shikshan Prasarak Mandal) and Dr. Mrs. Vidya Desai Madam (Hon Secretary Anandi Shikshan Prasarak Mandal) gave support to conduct such Visit to “Biomedical Waste Management ”

Outcome: Pharmacy Students are able to as a healthcare professionals and pharmacists are in an admirable position to educate patients about safe drug disposal. Proper patient counselling on safe medication disposal can make a significant difference to public health and the environment. The knowledge on method of disposal of unused medicines is equally important as that of consumption of medicines. **Necessity of Biomedical Waste Management:** Inadequate management of waste produced in health care facilities causes a direct health hazards on the general public, the health care workers and on the environment
