## AWARNES OF CANCER IN GIRLS

On 19/1/2023 in NSS Camp ANANDI B PHARMACY COLLEGE organized jointly meet of all ladies students of Anandi Pharmacy,womens in Bhamte village and Surekha sutar regarding proper use of sanitary napkins for avoiding uterus cancer. For the program Honorable Secratory Dr.Mrs.Vidya Desai , HOD Mrs Adnaik mam and all ladies staff members along with ladies were present.

Surekha sutar mam explained chemicals used in ultra napkins which converts liquid into gel, causes bladder and uterine cancer, the use of cotton pads over ultra pads and asks users to change ultra pads within five hours. Artificial fragrance added to the gel-based absorbent core of the pad causes issues similar to cancer.

Sanitary pads have a layered design consisting of a fluid permeable surface (topsheet), an absorbent core, and an impermeable backing with adhesive. They are available in varied sizes, absorption capacity, material type, etc. In ultra pads, the absorbent core contains a chemical that converts liquid into gel, hence retaining large amounts of liquid. prolonged use of the ultra pads leads to the growth of

fungus on the pad when the blood becomes green, and subsequent fungal infection of the uterus and bladder.

It is, therefore, advised to change every sanitary pad within 4-6 hours. "Natural bodily fluids can serve as culture media for the growth of bacteria and fungus on the pad if kept for longer durations. However, the risk of bacterial or fungal infection is unrelated to the type of sanitary pads but entirely dependent on the hygiene practices.

Saying that expectations are essential since we cannot thrive in an atmosphere of despair and unhappiness, the Prime Minister added, "Every child has his or her own potential and strengths. It is important to understand these positives of every child. Parents often treat the report cards of their children as their visiting cards and that adds extra pressure on them, which is very unreal and unhealthy. On depression among students, Modi said, "In a nation like ours, the subject of depression is very worrying. Our culture has mechanisms to cope with this. The more we talk openly about aspects relating to depression and mental health, it is better. We must always express, never suppress.
